

# Cancer Care Pathway

Helping our Group Income Protection customer's employees access the right support during cancer treatment and recovery

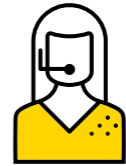

In the UK, over 100,000 people of working age are diagnosed with cancer each year. And more than 700,000 people of working age are living with a cancer diagnosis. Many will continue to work, after or even through their treatment. It's clear to see that putting the right support in place for employees diagnosed with cancer, is crucial for all companies.

We place the employee at the heart of our approach. If an employee is diagnosed with cancer, our team of Clinical Specialists can carry out an assessment, to establish what care pathway would be most beneficial and appropriate. Our Cancer Care Pathway makes accessing the right resources quick and easy, from counselling sessions to creating a tailored return to work plan.

Many will continue to work, after or even through their treatment. It's clear to see that putting the right support in place for employees diagnosed with cancer, is crucial for all companies.

We place the employee at the heart of our approach. If an employee is diagnosed with cancer, our team of Clinical Specialists can carry out an assessment, to establish what care pathway would be most beneficial and appropriate. Our Cancer Care Pathway makes accessing the right resources quick and easy, from counselling sessions to creating a tailored return to work plan.

### Be Well Hub

Available to all employers, our Be well hub provides access to a range wellbeing resources designed to help you actively manage your employees' wellbeing.

Under each of the physical, financial, social and mental health pillars of wellbeing, you'll find:

- Tools to help you create or update your wellbeing policies
- Free wellbeing resources that you can signpost your employees to
- Practical ideas for quick wins and implementation
- A reminder of the wellbeing services available with our Group Protection products

Please contact us for more details about what we can cover, the support we can provide and how we assess claims.

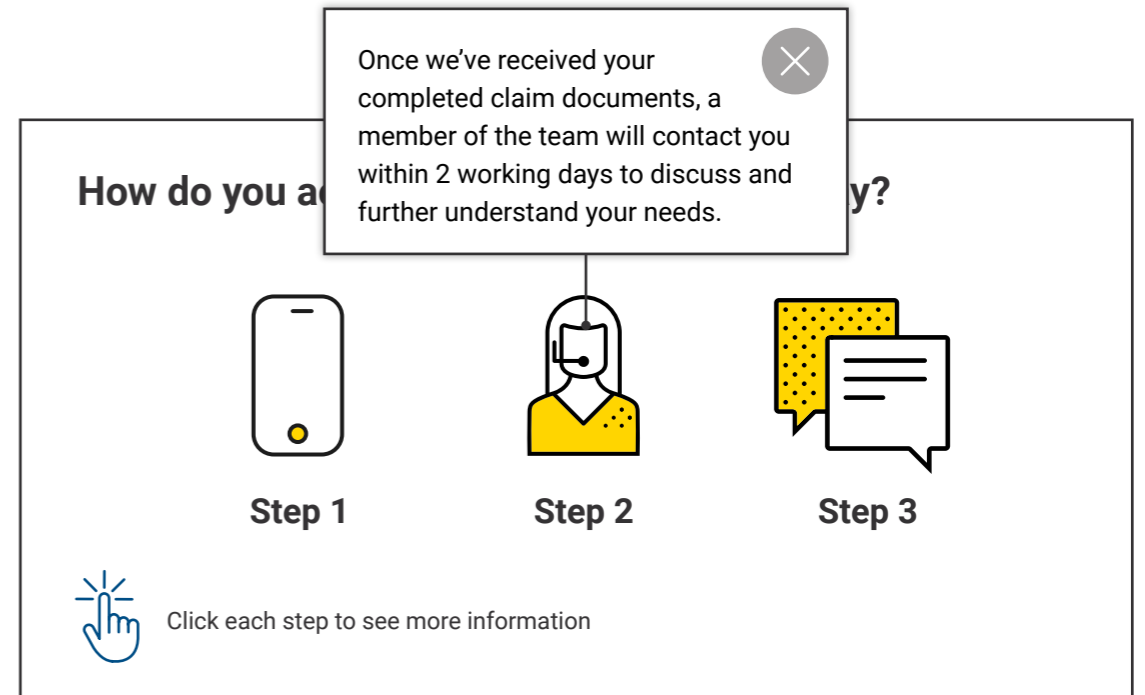

# Cancer Care Pathway

Helping our Group Income Protection customer's employees access the right support during cancer treatment and recovery

In the UK, over 100,000 people of working age are diagnosed with cancer each year. And more than 700,000 people of working age are living with a cancer diagnosis. Many will continue to work, after or even through their treatment. It's clear to see that putting the right support in place for employees diagnosed with cancer, is crucial for all companies.

We place the employee at the heart of our approach. If an employee is diagnosed with cancer, our team of Clinical Specialists can carry out an assessment, to establish what care pathway would be most beneficial and appropriate. Our Cancer Care Pathway makes accessing the right resources quick and easy, from counselling sessions to creating a tailored return to work plan.

### How do you access the cancer care pathway?
