

# Introducing CONNECTPlus

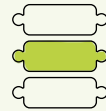

CONNECTPlus is the latest addition to our Group Income Protection suite of value added services at no extra cost. The downloadable app can help to empower insured employees and their immediate families to self manage the impact of living with one or more specific long term health conditions. CONNECTPlus conveniently provides interactive access to clinically assured information, all in one place. Line managers can also access the app to better understand an employee's situation and the support they might need.

Cancer

Stroke

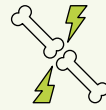

Multiple Sclerosis (MS)

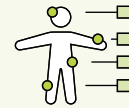

Type 2 Diabetes

Long Covid

Rheumatoid Arthritis

Symptom trackers to help monitor health progression.

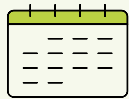

Video explainers and frequently asked questions.

Specific condition and healthy lifestyle information to empower employees to take control of their own care.

Guidance for returning to work to help build confidence in managing this transition.

Appointment diary to help maintain clinical schedules.

Educational content can support line managers/HR staff in managing and supporting an employee following diagnosis.

Medication reminders to support treatment regimes.
